THIRD MOCKUP

- ▶ This is the final mockup with clickable arrow, to hide and show the first container of webpage.

This screenshot shows the initial state of the website. A large blue downward-pointing arrow is centered on the page, indicating where the first container will appear when expanded. The main content area below the arrow is currently hidden.

This screenshot shows the website after the first container has been expanded by clicking the arrow. The content area below the arrow now displays a sidebar with links to various health-related topics like Publication, Clinical Trials, Investors, etc., and other sections like SYNOPSIS, FUNDING, INFOGRAPHY, and PATENT.

This screenshot shows the website after the first container has been expanded again. The sidebar and other sections remain visible, and the main content area continues to scroll down.
